ABOUT ME

Frontend Developer with 4+ years of experience building scalable, accessible, and engaging digital solutions. Skilled in React, TypeScript, and modern UI/UX practices. Experienced in creating design systems, mentoring juniors, and collaborating across teams to deliver impactful products.

EDUCATION

University of Science - VNUHCM

2017 – 2021

Information Technology

DIA ACADEMY, HCMC

2022

UI/UX Designer

PROFESSIONAL EXPERIENCE

Frontend Developer – TechX VN (formerly Sungrove Tech VN)   Dec 2024 - Present

- Built responsive, mobile-first UIs with HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Developed interactive components and data visualizations with ECharts.js and Swiper.js to enhance engagement.
- Applied semantic HTML and basic SEO setup to improve accessibility and search visibility.
- Collaborated in Agile/Scrum workflows (sprint planning, stand-ups, retrospectives) and mentored Junior developers.

Key Achievements:

- Developed a UI template library with 10+ responsive layouts, built with modular components (tables, sliders, galleries, forms), enabling faster development and flexible assembly.
- Integrated templates into two platforms (Easier, It'szai), supporting SMEs across **Japan** in digital marketing and customer engagement.
- Improved UI performance by optimizing DOM structure and reducing JavaScript bundle size.
- Increased UX consistency with responsive, cross-browser design and delivered smoother user experiences with interactive charts and animations.

Frontend Developer – Thang Loi Group   Dec 2020 - Dec 2024

A real estate company based in Ho Chi Minh City.

- Built core modules of an **Internal Business Management Toolkit** (HR, tasks, documents, e-signature, workflow automation, CRM, asset management) with React & TypeScript.
- Designed and implemented a company-wide design system with reusable UI components and documentation for consistent UX across products.
- Developed event-focused web apps (booking platforms, digital magazines, minigames, sports tournaments).
- Collaborated with cross-functional teams to deliver scalable, user-centric digital solutions.
- Mentored 3+ interns, guiding them on HTML, CSS, JavaScript, and Git best practices.

SELECTED PROJECTS

UI Template Library (View case study **)**

Library of 10+ responsive templates with modular components, integrated into two platforms to support SMEs in **Japan**.

Internal Business Management Toolkit (View case study **)**

Streamlined HR, Payroll, Asset & Workflow management with React + RESTful APIs.

Online Running Tournament (View case study **)**

Community event app with Strava API integration.

Luminex Website Redesign (View case study **)**

Redesigned Luminex's landing page to modernize branding, enhance user experience, and improve performance.
